Name _____ **Date** _____

3rd Grade Math Study Guide For Lesson 5.4 (Make Change)

Objective: Use the strategy **counting on** to make change.
Vocabulary: **None**
Textbook: Pp. 86-87
Background: Keep these ideas in mind when making change.

- Count on from a price to the amount paid to make change.
- Say the price of the object, and then count on to the amount of money given to pay.
- Use coins and bills with the least value first when counting on to make change.
- The price of the object + amount of change = amount given to pay.

Mr. Cook sells a muffin that cost $0.79. Mrs. Lopez gives Mr. Cook a $1 bill. Mr. Cook counts out the change. He starts with the price of the muffin and begins counting on with coins that have the least value to make $1.00.

$0.79 $0.80 $0.90 $1.00

money given: $1.00 **change given:** $0.21

Practice:

Complete the table. Count the change. Draw the coin or bill that is missing in each set of change given.

	Money Given	Item Sold	Change Given
1.	$1.00	$0.35	_____ _____ _____ _____
2.	$1.00	$0.92	_____ _____ _____ _____
3.	$1.00	$0.89	_____ _____
4.	$5.00	$3.74	_____ _____ _____

Assignment: Do P. 87, #1-10 (all)
